

Activity idea:

# Make your own ladybird

## You will need

- A cup or jar
- A sheet of paper
- Child-friendly scissors
- Colouring pencils/pens

- **Step 1** Take your cup and place it in the middle of the paper. Draw an outline around it - that's your ladybird's body! You can also download an outline of a ladybird [here](#)
- **Step 2** Draw a line down the middle, small circles on its body, a head and legs. Try asking your child to describe their ladybird and what they're doing at each step
- **Step 3** Cut out the ladybird and colour it in - whatever colours your child chooses
- **Step 4** You could also try making a family of minibeasts by making smaller or bigger ladybirds, or have a go at making other minibeasts such as beetles or ants.
