Dear parents and carers,

Bookstart Corner is a free offer from BookTrust, a charity that aims to get all children reading so they can enjoy all the great things that come from a love of books, stories and rhymes.

You'll get two books for your child, advice on reading and lots of activities for you to do together. Most importantly you'll get personalised support so you can get more out of reading with your child.

Reading is so important for every child's development. As well as helping to get your child ready for school, reading with your child supports emotional and social growth, and develops your relationship with them. It can even turn into a habit they'll love for life!

We do hope you try out **Bookstart Corner**, talk to your practitioner to find out more.
