

# Water painting

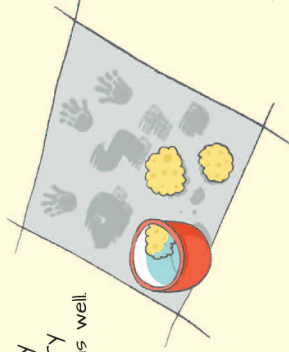

Some water in a plastic bowl and a big piece of paper can keep your baby entertained and provide as much fun as actual painting. Show your baby how to dip her hand in the water to make wet marks on the paper.

Large towel

- You could do this activity outside. Use a bucket of water and a piece of sponge to make watery marks or patterns on a brick wall, some garden paving or part of a shed or bench. Be prepared for your baby to get wet though!

You could try making watery hand prints as well.

Supervise your baby at all times near water.
