# The Pori Drwy Stori My Book: Teacher Guide

### The resources

Here are your Pori Drwy Stori book-making materials, sent to you by **BookTrust Cymru!**

In your pack, you will find templates of **My Book** for each child in your **Reception class** to develop, keep and be proud of.

**My Book** can be used throughout the **summer term**.

### My Book online

Visit **booktrust.org.uk/poridrwestori** to find:

- A template **My book** you can download
- A Teacher Toolkit full of ideas and activities to make the most of **My Book**.

Work with your class to talk about what makes up a good book or story before handing out the **My Book** resource.

Get some inspiration from the book lists on the **BookTrust** website. Your pupils could use a favourite character, picture or story to give them ideas for their own book.

Ask your pupils to write their name on the **front cover** as they are the author of this book.

To develop early storytelling skills you could:

- Give pupils a title or theme to talk about.
- Use different materials to create letters, shapes, words or pictures linked to a theme.
- Ask pupils to talk about a picture and what may be happening.
- Ask your class to design a picture for the front cover.

### Ideas and tips

On the **back cover** pupils could ask friends and family members to write a review!

Pupils can use cuttings from their own photos, magazines, newspapers or comics to tell their story.

Use the **Inside front cover** to help pupils take ownership of the books. They could take their books home to work with their parents or carers to find a photo to stick in or to write something about themselves.

Encourage pupils to tell their story or talk about their book with their friends and parents or carers.

### My Book can help pupils to develop:

- Creativity
- Planning and sequencing skills
- Positive attitudes towards books.
